

FAQ

Who Are We

Formed by a couple of young entrepreneurs, we at Tutor Here aim to address the most common issues faced by students across the world. By using fun & innovative methods we help them realise their true potential. All the while breathing a fresh air into learning, which if not implemented can lead to students finding education a tasking process.

What We Do

We strive to bring the highest quality of education possible to our students. By measuring quality on the basis of the amount of information students retain, we ensure that students never forget either the subject matter or their Tutors.

How We Do It

We employ the 'Socratic Method' of teaching, this usually involves encouraging students to ask questions and guiding them towards discovering the answers themselves. Such a method helps to stipulate critical thinking which in turn aids in drawing out ideas from the students. By asking the right questions we give fresh perspective to students in helping them to better understand the topic at hand.

Our Company has both a Profit & Non Profit aspect

1. Profit

With help of one on one sessions we are able to assure you that your child gets the best possible education when signing up. We have curated 3 different types of plans that you can enroll your child in. (Beginners), (Advanced) & (Custom). Custom programmes give you the most flexibility in tailoring a session that would be best suited for your child.

2. Non Profit

Our Non Profit aspect aims at providing education to those students who do not have access to the resources they need to excel. We provide them a platform through which they can grow, nurture and cherish their time

spent learning with us, by exposing them to a host of subject matter experts, mentors and peers through which they can realise and fulfill their true potential.
